

Monday 9th March 2015

Dear parents and carers,

House Lego Competition

We are writing to inform you that we, the House Captains, are organising another brilliant house competition, suggested and voted for by the children at Alfriston School . . . and it's all about Lego!

There will be 3 parts to this competition, all of which will take place during the week beginning 16th March, with the results announced and awards given at our celebration assembly on Friday 20th March.

Lego Competition A: The tallest tower

- To be held in the school hall on Wednesday 18th March at our 10am assembly.
- House teams of 7 pupils (1 per year group).
- To enter this competition, please complete and return the slip below to be entered into a draw.
- The lego used will be provided by the school, please do not bring any in.
- The teams will be given a time limit of 4 minutes.
- The house team that ends up with the tallest tower is the winner.

Lego Competition B: The best sculpture

- Lego or duplo may be used to create your sculpture.
- We are looking for a creative, detailed and a well-designed, put together structure.
- This is an individual competition – no pairs or groups may enter.
- The pupil creating the sculpture must be able to carry it safely into school by themselves (ie. No oversized or heavy sculptures, please)
- Please supply a label with your sculpture with your name, year group (not class name) and house.
- Any pupil at Alfriston School can enter.
- You can only enter one sculpture per pupil.
- The sculptures will be judged (out of 10) by any visitor who comes to the school during the week beginning Monday 16th March (we have at least 6 visitors already planned to come in during this week).
- Lego sculptures to be brought in to the school hall on the morning of Monday 16th March. If your sculpture is brought in later than this then you have the risk of a

visitor not seeing it and so your score could potentially be lower than the other entries.

Lego Competition C: The relay obstacle course

- To be held in the playground.
- Each class will arrange for this competition to happen in their own time during the week.
- The class will be split into their house teams, each with the same relay obstacle course to complete. The team will collect a piece of lego at one end of the obstacle course to bring back and place on the weighing scales. The House with the heaviest amount of lego wins.

We're really looking forward to another fantastic House Competition and we wish everyone luck. Parents and carers, please join us at our celebration assembly on Friday 20th March to congratulate all the efforts that our team members have made and when we will announce the overall winning house team!

Yours sincerely,

Emily (Windover House) , Indie (Exceat House) and Sam (Cuckmere House)

.....

Entry slip for Competition A: The tallest tower

Name of pupil

Year Group.....

House Team.....

Please hand into the school office by Monday 16th March to be entered into the draw.

Good luck!

Fair, Friendly, Fulfilling & Fun!
