

Have you got your maths eyes?

February 2016

House Competition – A Maths Challenge!

Maths is all around you – in the street, the shopping centre, railway stations, in fact everywhere you go.

You are invited to take a photograph (it must be all your own work) of maths in the world around you. Look at the shapes of buildings, what's beneath your feet and above your head and see the maths. How inventive and creative are you? Can you pose a question to accompany your photo (and the answer)? Think about all aspects of maths: number, pattern and shape, measure.

For ideas, take a look at the examples on this website:

<http://www.haveyogotmathseyes.com/maths-eyes-winning-entries-2014/>

<http://www.haveyogotmathseyes.com/maths-eyes-shortlisted-entries-2013/>

<http://www.haveyogotmathseyes.com/maths-eyes-shortlisted-entries-2012/>

Any visitors who come to the school will automatically be asked to judge this competition so that there is a winner for each class, and of course the overall House winner will be presented with the House Competition shield.

Send in photo to the school office email, stating your child's name, class and house team office@alfriston.e-sussex.sch.uk, by **Friday 26th February 2016**

Have fun with Maths!

Yours sincerely, The **House Captains**
